LUITBIZ BPM

BUSINESS PROCESS
MANAGEMENT SOFTWARE

Create & Manage both
Workflow attached &
Data Entry Forms With
LuitBiz BPM

HOW LUITBIZ BPM CAN HELP?

Luitbiz BPM makes it very easy to create process oriented applications that are based on the policies and processes you already use in your organization. Business users can set up processes directly without any programming skills and manage approvals on forms based on user defined workflow templates using LuitBiz BPM. Additionally, users can attach documents at various stages of the approval process to substantiate their views.

WHY LUITBIZ BPM?

EASY FORM BUILDER

It's extremely easy to build forms in LuitBiz BPM. Additionally, if required, we build the forms and workflows for our customers for an extra charge so that they can get started in no time with ease.

CUSTOMIZATION

LuitBiz BPM is completely customizable. It can be customized completely to meet your company's requirements. Additionally, the default form templates can be used by customers for ensuring compliance.

TRAINING & DEPLOYMENT

LuitBiz BPM is extremely easy to use and learn. Users can get started within one hour of implementation. All screens in LuitBiz BPM have video user guides that help them whenever they have any problem.
